This course introduces the integration of the Halal Management System with ESG principles to help halal-certified companies strengthen sustainability performance and ESG reporting. It highlights the importance of the halal supply chain, relevant standards, and the role of halal management within the ESG framework.

COURSE OBJECTIVE

- Understand the relationship between the Halal Management System and ESG principles
- Apply sustainability and ESG concepts within halal-certified organisations
- Conduct a basic Halal ESG materiality assessment

COURSE OUTLINE

- Overview of the Halal Industry
- Malaysia Halal Management System by JAKIM
- ESG and Their Relevance to Halal Logistics
- Sustainability in Business

WHO SHOULD ATTEND?

- Professionals from halal-certified organisations
- Managers and executives in halal, ESG, sustainability, logistics, or supply chain

TRAINER

Honorary Assoc. Prof. Dr Harlina Suzana Jaafar

An Associate Professor at Universiti Teknologi MARA and a leading authority in halal supply chain management, serving as Chairman of SMIC TC10 Halal Supply Chain under OIC. She has extensive experience in training, consultancy, and certification for halal logistics standards, with over 100 publications in the field. Honorary Assoc. Prof. Dr Harlina Suzana Jaafar is also a founding member of Malaysian Association of Public Advocacy for Nature (MAPAN).
